REQUIREMENT RR/HTA/E/R56/57: Locate and describe the new synthetic alcohol plant reportedly under construction at Omsk, USSR.

REMARKS:

A new sythetic alcohol plant reportedly is under construction in the vicinity of the large new petroleum refinery, located in the northern outskirts of Omsk, USSR. [REDACTED] photography shows several industrial installations under construction in the vicinity of the refinery. One of these may be the reported alcohol plant, but construction has not advanced to the stage where its identification is possible.
